

Dear Professor Fornari

On behalf of Polish Society for Crystal Growth, all Polish participants of DGKK-PTWK Conference and myself personally I would like to congratulate you and your staff very successful conference. My personal impression and also opinions expressed by other participants indicate that the Conference was very successful from scientific point of view. In particular it served well to exchange new ideas and promote collaboration between many scientific groups in Germany and Poland. It has to be stressed that the Conference was very well organized which, without doubt, was due to very hard work of your team and yourself personally. This event was possible for the strong support of your Institut für Kristallzuchtung (IKZ) which we gratefully acknowledge. I would like to express my gratitude to you and your team and all worker of the Institute involved in the organization of the event. Please convey my thanks to all people who has contributed to the success of the Conference.

I would like to express my gratitude to the organizers and sponsors of the Conference for their generous support of Polish participants. It has to be stressed that this help allowed many Polish students to participate in their first crystal growth conference. This opportunity will, I AM sure, have a very beneficial impact on their work in the future. I feel that this will also positively influence their future collaboration with their German counterparts.

Also I would like to thank Deutsche Gesellschaft für Kristallwachstum und Kristallzuchtung (DGKK) and the President Professor Wolf Assmus for their collaboration in the shaping of the event. Also I would like to thank the Board and all members of DGKK for their friendly collaboration during this event. I am sure that the successful conference will enhance our collaboration in the future. I hope it will help us to realize successfully our common, recently sketched, plans.

Finally I would like to express my opinion that this event will further improve the collaboration between German and Polish scientific communities in the future.

With the warmest expression of my thanks

Stanislaw Krukowski

President of PTWK

Warsaw, 10 March 2006
